**King's Department Store** is an authentic family department store that opened their doors for business back in 1946 (65 years ago) in the same location as today. Four generations have been part of this business. They are located in picturesque Liberty, KY and offer a large selection of name brand clothing for the entire family (the largest selection of blue jeans in the area including LEVI, LEE, and CARHARTT, in sizes 28-60 – plus CARHARTT coats, bibs, shirts, and more), shoes (brands such as MUCK boots, Georgia, Durango, Carhartt, Rocky, and Red Wing Shoes), t-shirts, caps, hats, belts, and suspenders, plus fabrics & notions at VERY reasonable prices. You're invited to step back in time and enjoy a real shopping experience. King's isn't like the big box stores that most people frequent today. The King family has offered quality merchandise at fair pricing, with great customer service and a friendly atmosphere for many years and continue to do so today. Founder H.R. King started the business this way and now his sons, David and Jerry carry on this family tradition.

**QUILTERS TAKE NOTE:** David and Jerry's mother was an avid quilter. She emphasized to her sons the importance of fabric. She always told them "You boys make sure you have plenty of fabric," says Jerry. They still do too – over 3,000 bolts, plus a wide selection of embroidery floss, pre-cut quilt block kits (that they manufacture through their sister company – *Quilt King Products* - and they have a catalog if you can't make it in), fat quarters, quilting patterns and templates, sewing baskets, batting (another product of *Quilt King Products*), backing, and many other notions and supplies not always found in other stores. Mrs. King would be so pleased. They have a quilters' paradise. Quilters and crafters from all over consider King's their little "secret". Customers have come from as far away as England to purchase fabric and notions at King's. This is truly a **DESTINATION** for folks that love quilting and sewing.
